

Mechanical thermostats

KONT

Contact thermostat for pipes used for boilers, kettles and other equipment for which it is necessary regulate the temperature by contact on pipes.

- 1 Boxed unipolar liquid expansion thermostat
- 2 Precise and constant operation over time
- 3 Particularly suitable for temperature detection on pipes for heating systems and various other applications
- 4 Switch contacts with grommet
- 5 Spring strap for constant seal to ensure good adherence on the pipe

THERMOSTAT FOR PIPES

- Regulation range: $0 \div +90\text{ }^{\circ}\text{C}$
- Differential: $5 \div 10\text{ }^{\circ}\text{C}$
- Thermal gradient: $<1\text{ }^{\circ}\text{C}/\text{min}$
- Degree of protection: IP20
- Contact capacity: 16 (2.5)A / 250 Vac

Code	Model	Description
VE025300	Kont	Contact thermostat for pipes
