

Compact sized remote actuator, designed to receive radiofrequency command signals coming from thermostats and chronothermostats.  
Its compact size allows installation also inside the flush-mounting boxes (it takes one module space).

## Remote actuator

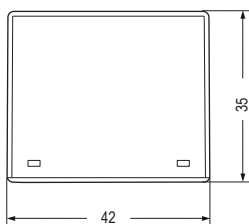

- 1 Bi-coloured red/green led to view the receiver status
  - 2 Key to configure the channel
  - 3 Operating antenna frequency: 433.92 MHz
- Power supply: 230 V AC (-15% ÷ +10%), 50/60 Hz
  - Output: 1 bistable relay with interruption power of 16 A (250 V AC)

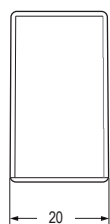

Code	Model	Description
VE736500	RX.16A	1 channel remote actuator
