

Current transformers

TU 20

Series of bypass bar amperometric transformers for instruments in alternating current with transformation ratio $x/5A$ or $x/1A$ and DIN rail or panel mounting (through the supplied supports).

- Bar passage: 15-20 mm
- Cable passage: $\varnothing 16$ mm
- Double terminal for secondary circuit
- Opening (hole) for cable or bar (primary) passage

CONNECTION DIAGRAM

When connecting the amperometric transformers it is important to respect the directions of the current.
 Primary: from P1/K to P2/L
 Secondary: from S1/k to S2/l

Notes: the capacity of the amperometric transformer must correspond to the full scale of the instrument.
